

Mary Buzby, Ph.D.
Director of Environmental Technology
Merck & Co.

Representing the Pharmaceuticals in the Environment Task Force at PhRMA

Mary Buzby, Ph.D. is Director of Environmental Technology for Merck & Co., Inc. She works at Merck in the areas of environmental technology, water quality management, resource optimization, green chemistry and product stewardship. Prior to joining Merck, she worked as chemist, lab director and pretreatment program coordinator in the wastewater industry. She is a licensed wastewater treatment plant and collection system operator in New Jersey.

Dr. Buzby is a member of the Pharmaceuticals in the Environment Task Force at the Pharmaceutical Research and Manufacturers of America (*PhRMA*) and chairs the group's aquatic life initiatives. Dr. Buzby serves on the Board of Directors of the Water Environment Research Foundation (WERF). In addition, she is a member of the Water Environment Federation, SETAC and the American Chemical Society. Dr. Buzby earned a B.S. in Chemistry and M.S. and Ph.D. degrees in Environmental Science at Rutgers University, New Brunswick, New Jersey.
