SUBJECT: 30-DAY EXTENSION FOR PUBLIC COMMENT PERIOD FOR THE AOC 056 BURN SITE CLEANUP PLAN

Greetings:

The California Department of Toxic Substances Control (DTSC), the state agency responsible for the cleanup and management of hazardous waste and contaminated sites throughout California, has received a request to extend for 30 days the public comment period for the pending cleanup plans that were public noticed beginning on March 25, 2015. These cleanup plans are for Areas of Concern (AOC) 056 (burn site), AOC 045 (former sump), and AOC 108/109 (landfills). The basis for this request is that there is a need for additional time to independently evaluate potential archeological related impacts. DTSC staff have reviewed this request. As a result, DTSC hereby extends the public comment period for the AOC 056 cleanup plan to May 27, 2015. Please send any comments you may have to my attention below.

The AOC 056 cleanup plan is dated October 6, 2014 and is titled "Draft Interim Corrective Measures Work Plan, AOC 056 Burn Site," and can be viewed at http://www.envirostor.dtsc.ca.gov/public/profile_report.asp?global_id=80001254 . Copies of the plan can also be viewed at the following locations: 1) Taft Library, 27 Emmons Park Drive, Taft, CA 93268, (661) 763-3294, or 2) DTSC Region 1, 1515 Tollhouse Road, Clovis, CA 93612, (559) 297-3901.

We greatly appreciate your participation in this process, as it helps DTSC better serve your needs and interests.

If you should have any questions, please contact me at (559) 297-3958 or by e-mail at michael.pfister@dtsc.ca.gov.

Thank you,

Michael Pfister
