

Dr. Rudolf Alfred Overbeek

Dr. Rudolf (Ruud) Alfred Overbeek is the Global Director of Health and Environmental Services at Intertek. He is responsible for Intertek's Global Health & Environmental business lines, including EU REACH, Restricted Substances and Greenhouse Gas Services, that provide global business solutions and technical leadership. In this role, he has been simultaneously establishing (1) global, practical solutions that enable corporate and supplier requirements fulfillment of global legislative statutes and (2) uninterrupted business flow during enforcement of legislation. Overbeek addresses existing and emerging environmental regulations as a primary contact and principle consultant to major Intertek customers and global brands.

Dr. Overbeek is a co-inventor of over 20 granted patents worldwide and has many global patent applications pending. He is also a co-author of a wide range of technical publications and is an invited speaker at international conferences.

Education: PhD (1994), M.S. (1990) Chemistry (Utrecht University), Management Development (1999, University of Michigan), Honors: DuPont Chemical Company Prize for Outstanding Independent Research (1992, 1993, 1994)
