

## NOTICE OF PUBLIC COMMENT PERIOD

### On the Draft Military Munitions Response Program (MMRP) Camp San Luis Obispo Remedial Investigation/Feasibility Study Work Plan and CEQA Negative Declaration

**Public Comment Period: November 10 to December 12, 2011**

The Department of Toxic Substances Control (DTSC) is providing this public notice to announce the public comment period on the Draft Camp San Luis Obispo (Camp SLO) Remedial Investigation/Feasibility Study Work Plan and California Environmental Quality Act (CEQA) Negative Declaration for Camp San Luis Obispo (Camp SLO) located about 6 miles north of San Luis Obispo along the 101 Freeway.

The Draft Work Plan and NOE provides information about the Army's Corp of Engineers and DTSC's planned remedial investigation actions at the Camp SLO Site. The general tasks to be completed include surveys to locate Munitions and Explosives of Concern (MEC). During this investigation, the Army may encounter MEC items. Items that are determined to be safe to move will be consolidated to a collection area and treated by detonation on site. Items that are determined unsafe to move and constitute an immediate safety hazard will be blown-in-place. Prior to any treatment of MEC, the Army will notify the Department of Toxic Substances Control (DTSC), local fire department, local police, and stakeholders located in or adjacent to the site and those community members requesting notification.

Written comments on the Draft Remedial Feasibility Study and California Environmental Quality Act (CEQA) Negative Declaration will be accepted during the 30-day public comment period, which begins on **November 10 and ends on December 12, 2011**. Please send your written comments to:

**Ed Walker, DTSC Project Manager**  
8800 Cal Center Drive
