

Hilary Godwin, PhD

*Professor, UCLA Department of Environmental Health Sciences*

Professor Godwin joined the UCLA faculty in 2006 and is currently a Professor in the Environmental Health Sciences Department, Associate Dean for Academic Programs in the School of Public Health, and Education Director for the UC Center for Environmental Implications of Nanotechnology. She received a B.S. in Chemistry from the University of Chicago in 1989 and a Ph.D. Physical Chemistry from Stanford University in 1994. She conducted postdoctoral research from 1994-1996 at the Johns Hopkins University School of Medicine in the Department of Biophysics and Biophysical Chemistry, where she was a National Institutes of Health postdoctoral fellow. Prior joining the faculty at UCLA, Dr. Godwin was on the faculty of the Department of Chemistry at Northwestern University, where she was an Assistant Professor (1996-2000), Associate Professor (2000-2006), Associate Chair (2003-2004), and Chair (2004-2006) of Chemistry. Dr. Godwin has received several awards, including a Camille Dreyfus Teacher-Scholar Award, an Alfred P. Sloan Research Fellowship, a National Science Foundation CAREER Award, a Burroughs Wellcome Fund Toxicology New Investigator Award, and a Camille and Henry Dreyfus New Faculty Award. She is a Howard Hughes Medical Institute Professor. Dr. Godwin's research focuses on elucidating the molecular toxicology of lead. She also works actively with community groups to prepare for and diminish the impact of climate change on public health.
