Fax: 818-717-6527**FROM:** Mark Loftus, Associate Director of University Risk and Compliance**RE:** Carbon Nanotubes

Dear Mr. Saebfar,

Thank you for returning my phone call regarding carbon nanotubes. As you are probably aware, on or about January 26 DTSC sent a letter to President Jon Whitmore here at San Jose State regarding carbon nanotubes. Per the instructions in that letter, I responded in writing stating San Jose State should not be a part of the request for information as we do not manufacture or do research on carbon nanotubes. Per your voice-mail instructions, I am attaching a copy of that letter.

On or about May 27, President Whitmore received another letter regarding the Chemical Information Call-In Roundtable. This letter has raised concerns that our response may not have been received. Please confirm that you now have my response letter, that we are in compliance, and that no more correspondence regarding carbon nanotubes will be sent to President Whitmore.

Please call me if you have any questions or if there is something else we should be doing.

Thanks and regards,

-Mark Loftus-
