

Elizabeth Wells, P.E.  
Water Resource Control Engineer  
California Regional Water Quality Control Board  
San Francisco Bay Region

Elizabeth Wells works in the Department of Defense Section of the Groundwater Protection Division at the San Francisco Regional Water Quality Control Board. She is the Water Board project manager for investigation and remediation activities at the Former Naval Air Station Moffett Field in Mountain View, California. She works collaboratively with U.S. EPA to oversee environmental activities conducted by the Navy at the former naval base.

Prior to joining the Water Board in early 2007, Ms. Wells was a Senior Engineer at Geomatrix Consultants (recently purchased by AMEC) for 19 years. She directed site investigation and remediation projects, oversaw Phase I and Phase II investigations, and provided litigation support on complex, multi-dimensional projects involving soil and groundwater contaminated by various chemicals. Ms. Wells earned her B.S. and M.S. in Civil Engineering at Stanford University and the University of California at Berkeley, respectively.
