

DTSC staff poses with Chinese Huizhou City Delegation members in front of DTSC's Cypress Office.

DTSC Hosts Seminar for the Chinese Huizhou City Delegation

DTSC's Cypress Cleanup Program and Environmental Chemistry Lab Branch Chiefs and their staff hosted a seminar for Chinese Huizhou City Delegation members on Oct. 9 at DTSC's Cypress office.

The delegation contacted DTSC and Cal EPA in mid-September of this year and expressed their interest in getting to know more about the following environmental topics:

- The recycling of toxic products and DTSC's process and methods.
- Green technology and green remediation.
- DTSC's Environmental Chemistry Lab located in Berkeley.

DTSC staff made presentations focused on these three areas and participated in a question-and-answer session with the delegation members.

Participating DTSC staff included Alan Hsu, Joe Hwong, John Scandura, Ted Peng, Mui Sam, Stephen Niou, Keh-Chuh Ting, J.T. Liu, Chia Rin Yen, Ning-Wu Chang, CY Jeng, David Murchison, Alexandra Alcala and Kristina Aquino.

DEPARTMENT *of* TOXIC SUBSTANCES CONTROL

Scandura, a branch chief for DTSC's Brownfields and Environmental Restoration Program, made a welcoming speech and closing remarks on behalf of DTSC director Debbie Raphael and California Governor Jerry Brown.

A representative of the group sent an email to DTSC staff once they returned to China: "It is an unforgettable experience for every delegate," Sue Zhang wrote. "I send my deep appreciation to all of you who had involvement in this meeting."
