Hi Larry,

Fyi – I was looking through my file for something else and came across the attached 2011 draft DTSC CAG flow chart that was going to be used in the Public Participation Manual update. Not sure if it was ever utilized? May have some value for the IRP.

All the best.

PPS WORK FLOW CHART FOR PP GUIDANCE CAG CHAPTER (DRAFT 08/30/11)

NOTE

As outlined in section 25358.7.1 (a) of Chapter 6.8 of the California Health and Safety Code, DTSC can be requested to form a CAG by either by (a) resolution from a legislative body, or (b) 50 signatures from members of the public

LEGAL VERIFICATION REQUIRED

DTSC legal needs to verify if there is any legal standing to deny a CAG being formed. This question is being asked because the formation of a CAG was denied on the SSFL project due to the fact that another (non CAG) community group already existed and Executive Management decided that a second community group tracking the project would not be beneficial to the project
