On February 25, 2005, the California Environmental Protection Agency, Department of Toxic Substances Control (Department) completed review of your latest revision of the Part B Permit Application entitled, "Hazardous Waste Storage and Transfer Facility, Operation Plan, Standardized Permit Application for Advanced Environmental, Inc., 13579 Whittram Avenue, Fontana, California", dated January 14, 2005. The Department has prepared a draft permit and proposed CEQA Negative Declaration for public review. If approved, the Permit would also authorize AEI Fontana to construct a new tank farm.

On March 11, 2005, the Department will have a Public Notice published in a major local newspaper requesting comments on the draft permit and proposed CEQA Negative Declaration. The public comment period begins on March 11, 2005 and ends on April 25, 2005. A public hearing will be held if there is a significant degree of public interest. At the close of the public comment period, the Department will make a final decision after carefully considering all comments received.

We are enclosing copies of the public notice, fact sheet, draft permit, and CEQA Initial Study/Negative Declaration for your information.
