### **Hazardous Waste Facility Permit Renewal for AERC.Com 30677 Huntwood Avenue Hayward, California**

**Public Comment Period: August 28 to October 12, 2009**

The California Department of Toxic Substances Control (DTSC) invites public comments on the proposed renewal of the Draft Standardized Hazardous Waste Facility Permit for AERC.Com, INC. (AERC) located at 30677 Huntwood Avenue, in Hayward, California. AERC is a lamp recycler that operates a hazardous waste storage and treatment facility to de-manufacture/recycle spent fluorescent and High Intensity Discharge (HID) lamps. This Standardized Hazardous Waste Facility Permit authorizes AERC to continue operating the hazardous waste storage and treatment facility in Hayward. AERC reclaims mercury from spent fluorescent and HID lamps. The outer glass from disassembled spent HID lamps is also reclaimed or otherwise properly disposed.

DTSC evaluated possible environmental impacts associated with the proposed Permit Renewal of AERC, as required by CEQA. DTSC has prepared a Notice of Exemption which states that the Hazardous Waste Facility would not have significant impacts to human health and the environment.
