Dear Mr. Smith:

The Department of Toxic Substances Control (DTSC) has reviewed the Standardized Permit Renewal Application and Operation Plan, dated August 20, 2009, for the AERC.COM, INC. (AERC) facility located at 30677 Huntwood Avenue, Hayward, California.

In accordance with Chapter 20 of California Code of Regulations, Title 22, Division 4.5, DTSC has determined that the subject application is technically complete. DTSC has prepared a Notice of Exemption in compliance with the California Environmental Quality Act and a Draft Standardized Hazardous Waste Facility Permit (Draft Permit).

The Draft Permit will soon be made available for public review and comment during a 45-day comment period prior to the issuance of a final permit decision. If DTSC determines that, based on the comments received, additional information is needed to clarify, modify, or supplement previously submitted material; DTSC reserves the right to require this information from AERC.

DTSC hereby approves the closure cost estimate submitted by AERC on July 30, 2009, in the amount of \$79,667.08
