### NOTICE OF FINAL HAZARDOUS WASTE FACILITY PERMIT DECISION

In accordance with the requirements of California Code of Regulations (CCR), title 22, section 66271.14, the Department of Toxic Substances Control (DTSC) is issuing this Notice of Final Hazardous Waste Facility Permit Decision (Notice) for the following facility:

AERC.COM, INC.  
30677 Huntwood Avenue  
Hayward, California 94544  
Alameda County  
EPA ID No. CAD 982 411 993

The Permit authorizes AERC.COM, INC. to continue to treat and store hazardous waste and to reclaim mercury from spent fluorescent and high intensity discharge (HID) lamps.

On August 28, 2009, DTSC informed the public of a 45-day public comment period on the Draft Permit by issuing a notice in The Daily Review (an English language newspaper) and Vision Hispana Newspaper (a Spanish language newspaper). Copies of a fact sheet (in English and Spanish) were mailed to persons on the facility mailing list. A paid public notice announcing the public comment period was aired on a local radio station. The public comment period began on August 28, 2009 and ended on October 12, 2009. DTSC received no comments on the Draft Permit. However, DTSC made some minor changes to the Draft Permit for clarification purposes. DTSC prepared a Notice of Exemption in compliance with the California Environmental Quality Act (CEQA).

Since no comments were received on the Draft Permit, the final Hazardous Waste Facility Permit becomes effective immediately on February 12, 2010 pursuant to California Code of Regulations, title 22, section 66271.14(b)(3).

DTSC made some minor changes to the Final Permit for solely for clarification purposes. A copy of the Final Permit, DTSC's memorandum listing the changes made to the Draft Permit, a redline/strikeout version of the Permit that shows the changes

from the Draft Permit to the Final Permit, and the CEQA Notice of Exemption are available for review at:
