### **NOTICE OF FINAL STANDARDIZED HAZARDOUS WASTE FACILITY PERMIT DECISION – AMERICAN OIL COMPANY**

In accordance with the requirements of California Code of Regulations (CCR), title 22, section 66271.14, the Department of Toxic Substances Control (DTSC) is issuing this Notice of Final Standardized Hazardous Waste Facility Permit Decision (Notice) for the following facility:

American Oil Company  
13736 – 13740 Saticoy Street  
Van Nuys, California 91402  
EPA ID No. CAD 981 427 669

American Oil Company stores and transfers used oil and solid wastes contaminated with oil.

DTSC prepared a draft Standardized Hazardous Waste Facility Permit (Draft Permit) for this project. An Initial Study and the draft Negative Declaration was also prepared to comply with the California Environmental Quality Act (CEQA).

On April 7, 2006, DTSC published a public notice in the *Los Angeles Daily News*, and held a 45-day public comment period from April 7, 2006 to May 22, 2006 for both the Draft Permit and the draft Negative Declaration. A fact sheet was also sent to persons on DTSC's mailing list. DTSC held a public hearing on May 10, 2006, at the Panorama City Public Library, Panorama City, California. A court reporter prepared a certified transcript of the public hearing and all verbal testimony given at the public hearing.

Public comments were received by electronic mail, U.S. mail, and in oral testimony. DTSC has prepared a Response to the Comments document and added one new permit condition to the Draft Permit as a result of public comments. The Response to Comments and a memorandum describing the revisions made to the Draft Permit have been made a part of the administrative record and are available to the public at the repositories listed at the end of this Notice. A copy of the Response to Comments will also be sent to those who submitted comments or otherwise requested a copy. The draft Negative Declaration was finalized without any modifications.

The Final Standardized Hazardous Waste Facility Permit becomes effective on January 17, 2007 unless a review is requested pursuant to CCR, title 22, section 66271.18. Any person who filed comments on the Draft Permit or participated in the public hearing on the permit decision may petition DTSC to review any condition of the permit decision. Any person who failed to file comments or failed to participate in the public hearing on the Draft Permit may petition for administrative review only to the extent of the changes from the draft to the final permit decision. The petition shall include a statement of the reasons supporting that review, including a demonstration that any issues being raised were raised during the public comment period (including the public hearing) to the extent required by these regulations and when appropriate, a showing that the condition in question is based on :

1. A finding of fact or conclusion of law which is clearly erroneous; or
2. An exercise of discretion or an important policy consideration which DTSC should, in its discretion, review.

A petition for review must be postmarked no later than January 12, 2007, and must be submitted to:

Watson Gin, Deputy Director  
Hazardous Waste Management Program  
Department of Toxic Substances Control  
P.O. Box 806  
Sacramento, California 95812-0806

A copy of the petition should also be sent to:
