Subject: DRAFT FINAL MITIGATED

Project Title: Boeing Torrance Southern Parcel Corrective Measures Study

State Clearinghouse No.:

Project Location: 3100 West Lomita Boulevard, Torrance, California

County: Los Angeles

Project Description: The California Department of Toxic Substances Control (DTSC) is proposing to select remedies recommended in a Corrective Measures Study (CMS) Report prepared by The Boeing Company (Boeing) for the southern portion of the former Boeing facility. Selecting the remedies would allow Boeing to implement the corrective measures recommended in the CMS Report and obtain a Corrective Action Complete with Controls determination from DTSC for the southern portion of the property. If DTSC selects the remedies, corrective action will be terminated in the southern portion of the site, and the existing Corrective Action Consent Agreement between DTSC and Boeing would be revised to include only the northern portion of the property.

Finding Of Significant Effect On Environment: None (*An Initial Study supporting this finding is attached.*)

Mitigation Measures: None
