EXPLANATION:

- TPH values above one-half commercial/industrial Risk Based Screening Level (RBSL) for soils <10 ft bgs and Construction Worker RBSL
- TPH values above Construction Worker RBSL
- TPH values above Commercial/Industrial RBSL

Sample locations shown in black represent samples that yielded chemical data. Samples in grey have no data associated with them.

- Existing Monitoring well location
- Approximate location of Rolling Oil Sump (Park Oct 1991)
- Soil sample location (Park August 1993)
- Groundwater sample location (Park Feb 1995)
- Soil gas sample location (Park, June 1996)
- Soil and soil vapor sample location (ERM June 2006)
- Soil sample location (ERM June 2006)
- Underground Storage Tank sample location
