

NOTICE OF PUBLIC COMMENT PERIOD

Standardized Hazardous Waste Facility Permit Renewal for Chico Drain Oil Service (Chico Facility) 1618 W. 5th Street, Chico, CA

Public Comment Period: September 25 to November 10, 2009

The Department of Toxic Substances Control (DTSC) invites you to review and comment on the Draft Renewal Standardized Permit, Series C (Permit) for the Chico Drain Oil Service – Chico Facility (Chico Drain Oil) at 1618 West 5th Street in Chico. Approval of the Permit will allow Chico Drain Oil to continue operating a hazardous waste storage facility.

The Facility collects used oil from offsite generators (gas stations, oil changers, auto repair shops, etc.) and consolidates the used oil in two storage tanks at the Facility before shipping the used oil to an authorized hazardous waste treatment or disposal facility. The Facility also collects waste antifreeze and oily water from offsite generators. Waste antifreeze and oily water are transferred into larger tanker trucks in the loading/unloading area. DTSC also proposes to issue a Notice of Exemption under the California Environmental Quality Act which is available for public review and comments.
