

NOTICE OF PUBLIC COMMENT PERIOD

DRAFT HAZARDOUS WASTE FACILITY PERMIT AND PROPOSED NEGATIVE DECLARATION

**CleanTech Environmental Inc.
5820 Martin Road
Irwindale, California 91706**

Public Comment Period: November 18, 2011 to January 9, 2012

The California Department of Toxic Substances Control (DTSC) invites public comments on the Draft Hazardous Waste Facility Permit (Permit) for CleanTech Environmental Inc. (CleanTech) at 5820 Martin Road in Irwindale. Approval of the Permit would allow CleanTech to construct and operate a used oil recycling facility. CleanTech collects used oil from offsite generators (gas stations, oil changers, auto repair shops, etc.) and consolidates the used oil in tanks at the facility. The used oil is then treated to meet the recycled oil standards. CleanTech would then certify the treated used oil as "recycled oil."

CleanTech also collects drums of used oil, waste antifreeze, and non-RCRA wastewater and stores them in a drum storage area. The liquid waste in containers may then be pumped into the appropriate storage/treatment tanks. Additionally, CleanTech collects drums of solid waste including solid waste contaminated with oil, oil/water separation sludge, contaminated soil with oil, contaminated containers, etc. The drums are then placed in the drum storage area. Consolidated waste antifreeze, non-RCRA wastewater, and oil-contaminated solid wastes are then shipped offsite to a recycling, treatment, or disposal facility.

DTSC requests comments on a proposed Negative Declaration, which finds the project would not have significant effect on human health and the environment. The full Administrative Record pertaining to this matter is available for review at the DTSC office shown below. The Draft Hazardous Waste Facility Permit, Permit Application, and related CEQA documents are available for public review at the following repositories shown below.

Irwindale Public Library
5050 North Irwindale Avenue
Irwindale, California 91706
