Berkeley, CA 94710

Subject: DRAFT FINAL MITIGATEDProject Title: Issuance of Hazardous Waste Facility Permit for David H. Fell & Co., Inc.State Clearinghouse No.:Project Location: 6009 Bandini Boulevard, Bell, CA 90040County: Los AngelesProject Description:

David H. Fell & Co., Inc. (DHF) is a precious metal recycling facility. They transfer hazardous waste containing silver and other precious metals from known off-site generators to the facility under manifests or under bill of lading when qualifying under small quantity exemption. The hazardous waste is analyzed in the DHF laboratory to determine its precious metals contents. The incoming waste is processed to maximize the reclamation of precious metals in the physical form requested by customers.

The following units and their activities along with storage of hazardous waste are regulated by the Department of Toxic Substances Control:

- Roaster furnace drying thermal reduction
- Jaw Crusher crushing
- Ball Mill grinding
- Screen screening
- Blender blending
- Sample extraction drum thief
- Melting furnace melting

Finding Of Significant Effect On Environment: *(An Initial Study supporting this finding is attached.)*

The impacts on individual resources were examined in the attached Initial Study. DTSC concluded that there would be no impacts to the following resources: Aesthetics, Agricultural Resources, Air Quality, Biological Resources, Cultural resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, Land Use and Planning, Mineral Resources, Noise, Population and Housing, Public Services, Recreation, Transportation and Traffic and Utilities and Service Systems.

Mitigation Measures: None required._____
