To Whom It May Concern:

### **NOTICE OF FINAL DECISION FOR CORRECTIVE ACTION COMPLETION**

The Department of Toxic Substances Control (DTSC) is issuing this Notice of Final Decision for Corrective Action Completion without controls (Notice) to approve the determination of no further action for the Eastern Development Area, Western Development Area, and Cline Property at the following facility:

Former DuPont Facility (DuPont)  
6000 Bridgehead Road  
Oakley, California 94561-2940  
Contra Costa County

In accordance with the California Code of Regulations, title 22, section 66271.9 regarding public notices, DTSC held a 45-day public comment period from February 27, 2006 to April 12, 2006 to seek public comments on the proposed Corrective Action Completion for three parcels at this site. The public notice was published in the Contra Costa Times newspaper. A Fact Sheet and public notice was also mailed to the facility mailing list of approximately 1519 persons. A public workshop and public hearing was held on March 28, 2006 at the Administrative Office Building at the Former DuPont Facility. No public comments were received at the public hearing. One e-mail with comments was received. Therefore, DTSC has prepared a Response to Comments document. This Final Decision is effective upon the date of issuance. A copy of the Response to Comments document and the Notice will be mailed to the one commenter. Copies of the Notice will be mailed to all persons on the facility mailing list.

DTSC is approving the Corrective Action Completion without controls as described in the Statement of Basis for this project. In addition, DTSC is approving the change in the regulated property boundary to remove these three parcels from the Resource Conservation and Recovery Act (RCRA) regulated facility boundary.

DTSC prepared a Notice of Exemption for this project to comply with the California Environmental Quality Act (CEQA). The CEQA Notice of Exemption will be filed with the Office of Planning and Research as part of this Notice.
