CONSENT ORDER

Health and Safety Code
Section 25187

INTRODUCTION

The State Department of Toxic Substances Control (Department) and Hazardous Material Transportation, Inc. (Respondent) enter into this Consent Order (Order) and agree as follows:

1. Respondent is a registered hazardous waste transporter, Registration Number 3843, that regularly transports hazardous waste through the designated California/Mexico ports of entry.

2. On October 28, 2014, the Department conducted an inspection of Respondent's shipment, a 20 cubic yard capacity roll-off container of filter-cake, a RCRA hazardous waste, at the U.S. Customs and Border Protection, Otay Mesa Port of Entry, San Diego County. The hazardous waste was being imported for disposal at the U.S Ecology Class I landfill in Beatty, Nevada.

3. Based on this inspection, the Department alleges the following violations:

3.1 Respondent violated California Code of Regulations, title 22, section 66263.16(a), in that, on or about October 28, 2014, Respondent transported hazardous

waste in a container that was not designed or constructed, or its contents so limited that, under conditions normally incident to transportation, there would be no release of hazardous waste to the environment; the container did not have a visible liner, and there were gaps in the sealant applied to the rear door.

3.2 Respondent violated California Code of Regulations, title 22, section 66263.16(b), in that, on or about October 28, 2014, Respondent transported hazardous waste in a container that was not free of leaks; the container was leaking a clear liquid around gaps in the sealant applied to the rear door.

4. A dispute exists regarding the alleged violations.

5. The parties wish to avoid the expense of litigation and to ensure prompt compliance.

6. Jurisdiction exists pursuant to Health and Safety Code section 25187.

7. Respondent waives any right to a hearing in this matter.

8. This Order shall constitute full settlement of the violations alleged above, but does not limit the Department from taking appropriate enforcement action concerning other violations.

9. Respondent admits the facts alleged above for the purpose of any subsequent action brought pursuant to the Hazardous Waste Control Law, Health and Safety Code section 25100 et seq., within 5 years of the date the violations occurred.

SCHEDULE FOR COMPLIANCE

10. Respondent shall comply with the following:

10.1 Respondent's shipment was returned to Mexico. Respondent shall

immediately cease the importation of hazardous waste in containers that are not designed or constructed to prevent a release of hazardous waste to the environment. Respondent must also ensure that all containers of hazardous waste are free of leaks.

10.2 Submittals: All submittals from Respondent pursuant to this Consent Order shall be sent to:

10.3. Communications: All approvals and decisions of the Department made regarding such submittals and notifications shall be communicated to Respondent in writing by a Unit-Chief, Department of Toxic Substances Control, or his/her designee. No informal advice, guidance, suggestions, or comments by the Department regarding reports, plans, specifications, schedules, or any other writings by Respondent shall be construed to relieve Respondent of its obligation to obtain such formal approvals as may be required.

10.4. Department Review and Approval: If the Department determines that any report, plan, schedule, or other document submitted for approval pursuant to this Consent Order fails to comply with the Order or fails to protect public health or safety or the environment, the Department may return the document to Respondent with recommended changes and a date by which Respondent must submit to the Department a revised document incorporating the recommended changes.

10.5. Compliance with Applicable Laws: Respondent shall carry out this Order in compliance with all local, State, and federal requirements, including but not limited to requirements to obtain permits and to assure worker safety.

Any deadline in this Consent Order directly affected by a Stop Work Order under this section shall be extended for the term of such Stop Work Order.

10.7. Liability: Nothing in this Consent Order shall constitute or be construed as a satisfaction or release from liability for any conditions or claims arising as a result of past, current, or future operations of Respondent, except as provided in this Consent Order. Notwithstanding compliance with the terms of this Consent Order, Respondent may be required to take further actions as are necessary to protect public health or welfare or the environment.

10.8. Site Access: Access to the Site shall be provided at all reasonable times to employees, contractors, and consultants of the Department, and any agency having jurisdiction. Nothing in this Consent Order is intended to limit in any way the right of entry or inspection that any agency may otherwise have by operation of any law. The Department and its authorized representatives may enter and move freely about all property at the Site at all reasonable times for purposes including but not limited to:

inspecting records, operating logs, and contracts relating to the Site; reviewing the progress of Respondent in carrying out the terms of this Consent Order; and conducting such tests as the Department may deem necessary. Respondent shall permit such persons to inspect and copy all records, documents, and other writings, including all sampling and monitoring data, in any way pertaining to work undertaken pursuant to this Consent Order.

10.9. Sampling, Data, and Document Availability: Respondent shall permit the Department and its authorized representatives to inspect and copy all sampling, testing, monitoring, and other data generated by Respondent or on Respondent's behalf in any way pertaining to work undertaken pursuant to this Consent Order. Respondent shall allow the Department and its authorized representatives to take duplicates of any samples collected by Respondent pursuant to this Consent Order. Respondent shall maintain a central depository of the data, reports, and other documents prepared pursuant to this Consent Order. Respondent shall preserve all such data, reports, and other documents for a minimum of six years after the conclusion of all activities under this Consent Order. If the Department requests that some or all of these documents be preserved for a longer period of time, Respondent shall either comply with that request, deliver the documents to the Department, or permit the Department to copy the documents prior to destruction. Respondent shall notify the Department in writing at least six months prior to destroying any documents prepared pursuant to this Consent Order.

10.10. Government Liabilities: The State of California shall not be liable for injuries or damages to persons or property resulting from acts or omissions by Respondent or related parties specified in paragraph 12.3, in carrying out activities pursuant to this

Consent Order, nor shall the State of California be held as a party to any contract entered into by Respondent or its agents in carrying out activities pursuant to this Consent Order.

10.11. Incorporation of Plans and Reports: All plans, schedules, and reports that require Department approval and are submitted by Respondent pursuant to this Consent Order are incorporated in this Consent Order upon approval by the Department.

10.12. The extension request shall include a justification for the delay.

10.13. Extension Approvals: If the Department determines that good cause exists for an extension, it will grant the request and specify in writing a new compliance schedule.
