

## NOTICE OF PUBLIC COMMENT PERIOD AND PUBLIC MEETING

Former Baron Blakeslee, Inc  
Draft Post-Closure Permit  
Newark, California

**PUBLIC COMMENT PERIOD: October 15, 2009 to December 4, 2009**

**What is being proposed?** The Department of Toxic Substances Control (DTSC) invites you to comment on a draft Post-Closure Permit for the former Baron Blakeslee, Inc. Facility, 8333 Enterprise Drive, Newark, California.

DTSC is the state agency responsible for regulating the generation, storage, treatment, and disposal of hazardous waste in California. If approved, the 10-year post-closure permit would allow the closed facility to continue environmental monitoring and maintenance.

As part of the permit process, DTSC has performed a review of the proposed draft post-closure permit as required by the California Environmental Quality Act (CEQA). Based on this review, DTSC has determined that the proposed draft permit will not have any significant adverse effects on public health or the environment. DTSC proposes to issue a CEQA Notice of Exemption in connection with this project.

A public comment period begins October 15 and ends on December 4, 2009. Written comments must be received or e-mailed by December 4, 2009 and sent to: Mr. Mike Eshaghian, DTSC Project Manager, 9211 Oakdale Avenue, Chatsworth, California 91311, [MEshaghi@dtsc.ca.gov](mailto:MEshaghi@dtsc.ca.gov)
