TECHNICAL COMPLETENESS DETERMINATION FOR PART B PERMIT  
APPLICATION, NAVAL AIR STATION NORTH ISLAND, CORONADO/SAN DIEGO  
(EPA ID NO. CA717 009 0016)

Dear Ms. Graulau:

The Department of Toxic Substances Control has reviewed the Resource Conservation and Recovery Act (RCRA) Part B Permit Renewal Application, dated February 2010, for Naval Air Station North Island (NASNI), located in San Diego/Coronado, California.

As a result of this review, DTSC hereby determines your permit application as technically complete. Although the application is considered technically complete, DTSC may request additional information when necessary to clarify, modify, or supplement previously submitted information.

DTSC plans to issue a public notice to the RCRA Part B Permit Renewal Application on February 16, 2010. Until a permit is issued, NASNI is authorized to operate under the existing Hazardous Waste Facility (HWF) Permit which became effective on January 5, 1998. NASNI shall comply with conditions specified in the 1998 HWF Permit.

Ms. Christina Graulau
