

NOTICE OF PUBLIC COMMENT PERIOD AND PUBLIC MEETING

Raytheon Company Draft Hazardous Waste Facility Permit Renewal El Segundo, California

PUBLIC COMMENT PERIOD: August 17 to October 1, 2007

WHAT IS BEING PROPOSED?

The Department of Toxic Substances Control (DTSC) invites you to comment on the renewal of the draft Hazardous Waste Facility Permit for the Raytheon Company facility located in the City of El Segundo. The draft Permit allows Raytheon to continue the operation of a hazardous waste storage facility for another 10 year period.

DTSC is the state agency responsible for regulating the generation, storage, treatment, and disposal of hazardous waste in California. If approved, the renewed Permit would allow the facility to continue to store hazardous wastes, such as plating wastes, used solvents, ethylene glycol, petroleum waste oils, etc. A complete list of waste that the facility store is available in the Permit renewal documents located in the repository listed below.

As part of the permit process, DTSC has performed a review of the proposed draft Permit Renewal as required by the California Environmental Quality Act (CEQA). Based on this review, DTSC has determined that the proposed draft Permit will not have any significant effects on public health or the environment. DTSC proposes to issue a CEQA Notice of Exemption in connection with this project.

The 45-day public comment period is from August 17 to October 1, 2007. Written comments must be postmarked or emailed by October 1, 2007 and sent to: Mr. Liang Chiang, P.E., DTSC Project Manager, 1011 North Grandview Avenue, Glendale, CA 91201-2205 or LChiang@dtsc.ca.gov.
