PUBLIC COMMENT PERIOD
SAFETY-KLEEN SYSTEMS, INC.
FRESNO BRANCH
Draft Hazardous Waste Facility Permit Renewal
Fresno, California**

PUBLIC COMMENT PERIOD: May 30, 2007 to July 13, 2007

WHAT'S BEING PROPOSED?

The Department of Toxic Substances Control (DTSC) invites you to comment on a draft permit renewal for Safety-Kleen Systems, Inc., a hazardous waste storage facility. Safety-Kleen Systems Inc., Fresno Branch (facility) is located at 3561 S. Maple Avenue in Fresno, California 93725.

DTSC is the state agency responsible for regulating the generation, storage, treatment, and disposal of hazardous waste in California. If approved, the renewed permit would allow the facility to continue storing hazardous waste. The facility received a hazardous waste storage permit on October, 10, 1996. The types of wastes that the facility stores are: paint thinners, paint wastes, used oil, anti-freeze, dry cleaning solvents, and industrial solvents, part washer solvents, and aqueous wastes.

As part of the permit process, DTSC has performed a review of the proposed draft permit renewal as required by the California Environmental Quality Act (CEQA). Based on this review, DTSC has determined that the proposed draft permit will not have any significant effects on public health or the environment. DTSC proposes to issue a CEQA Notice of Exemption for this project.

The 45-day public comment period is from May 30, 2007 to July 13, 2007. Written comments must be postmarked or emailed by July 13, 2007 and sent to: Mr. Farshad Vakili, P.E., DTSC Project Manager, 8800 Cal Center Drive, Sacramento, CA 95826 or fvakili@dtsc.ca.gov.
