

**NOTICE OF EXEMPTION**

To: Office of Planning and Research  
State Clearinghouse  
P.O. Box 3044, 1400 Tenth Street, Room 212  
Sacramento, CA 95812-3044

From: Department of Toxic Substances Control  
Northern California Permitting and  
Corrective Action Branch  
8800 Cal Center Drive  
Sacramento, CA 95826

Project Title: Telair International  
Class 1\* Permit Modification for Change in Ownership, Change in Owner Address, and Corrections of  
Typographical Errors in the Facility's Post-Closure Permit

Project Location: 3303 Old Conejo Road  
Newbury Park, California 91320

County: Ventura

Project Description:

**Project Activities**

The Department of Toxic Substances Control (DTSC) reviewed the Class 1 Permit Modification request submitted on March 21, 2006 and determined that a Class 1\* is the correct class for this modification. DTSC approved the Class 1\* permit modification which includes a change in ownership of the facility, a change in the owner address, and the correction of typographical errors in the facility's October 7, 2005 post-closure permit.

The previous owner name and address was:

The Talley Corporation  
Telair International  
155 South Limerick Road  
Limerick, Pennsylvania 19468

The new owner name and address is:

Telair – Wendy Road LLC  
2060 E Avenida de los Arboles #D589  
Thousand Oaks, California 91362

**Background**

The Site occupies approximately 12.85 acres and was used for manufacturing civilian and military aircraft components between 1956 and 1989. During the manufacturing process the facility generated hazardous wastes that included metals, cyanide, chlorinated solvents, and wastes oils. Soil and groundwater at the site were impacted from the on-site waste disposal practices that included a leach field and two evaporation ponds.

As part of the facility shut down the on-site surface impoundment was removed and approximately 3,000 cubic yards of underlying soil was removed and disposed off-site. The area was backfilled to grade. In 1989, an interim groundwater extraction and treatment system was installed to control groundwater contaminated with chlorinated solvents and chromium IV. In 1998, additional impacted soil was removed from the leach field area and a soil vapor extraction system was installed to remove the remaining chlorinated solvents in the vadose zone. In late 2003, the remedial goals of the soil vapor extraction system were achieved and DTSC certified completion of that part of the remedy in May 2004. Site soils have been remediated to industrial/commercial standards and the site will require land use restrictions into the foreseeable future. The groundwater remedy is ongoing and is expected to continue throughout the period of this permit. U.S. EPA issued a Statement of Basis for Groundwater Remediation in September 1993. DTSC issued a final Statement of Basis for Soil Remedy in April 1999. The groundwater treatment plant is covered under Permit by Rule is not part of this permit.

A post-closure permit was issued in 1992, expired in 2002, and renewed October 7, 2005.

Name of Public Agency Approving Project: Department of Toxic Substances Control

Name of Person or Agency Carrying Out Project: Telair International  
 3303 Old Conejo Road  
 Newbury Park, California 91320

Exemption Status: (check one)

- Ministerial [PRC, Sec. 21080(b)(1); CCR, Sec. 15268]
- Declared Emergency [PRC, Sec. 21080(b)(3); CCR, Sec. 15269(a)]
- Emergency Project [PRC, Sec. 21080(b)(4); CCR, Sec. 15269(b)(c)]
- Categorical Exemption: [CCR, Sec.]
- Statutory Exemptions: [State code section number]
- General Rule [CCR, Sec. 15061(b)(3)]

Exemption Title: With Certainty, No Possibility of a Significant Effect to the Environment

Reasons Why Project is Exempt:

With certainty, the proposed project will have no possibility of a significant effect to the environment because the project activities are administrative changes to the post-closure permit. Post-closure monitoring and maintenance will not be affected by the proposed project. DTSC determined that prior approval was necessary for the permit modification because a new legal entity was formed when Telair changed its name and added a partner.
