

# Work Notice

The mission of DTSC is to protect California's people and the environment from harmful effects of toxic substances through the restoration of contaminated resources, enforcement, regulation and pollution prevention.

## Exide Technologies – Soil Cleanup Activities

The Department of Toxic Substances Control (DTSC) will supervise the cleanup of contaminated soils at residential yards in your neighborhood. The work includes the removal of contaminated soils at two properties. New soil will replace contaminated soil. Properties will be landscaped and returned to their original condition.

### To ensure public safety during the cleanup of contaminated soils, the contractors will:

- Install safety fencing around the work areas;
- Post no parking signs near the work areas;
- Spray water on the work areas to reduce dust;
- Conduct air monitoring and dust monitoring during work hours;
- Clean driveways and sidewalks in the work areas using a high efficiency particulate air (HEPA) vacuum;
- Clean truck tires prior to leaving the site;
- Cover soil carried by trucks before leaving the site; and,
- Drive trucks at slow speeds while on the residential streets.

### Work Schedule

Depending on weather conditions, soil cleanup activities are scheduled to take place **December 4 – 19, 2014**. Work will take place Monday – Friday, from 8 a.m. - 5 p.m. Efforts will be made to reduce noise and disruptions to traffic and parking. No street closures are planned. DTSC staff will be present during the work activities. **A 24-hour, bilingual, toll-free information line, 1-844-707-0808**, is available for questions or to report concerns regarding the soil cleanup activities.
