Subject: dtsc HWCA 07/08-P003 20 PERMIT

Dear Alfred Wong

I m writing to appeal the condition for the Hazadous waste permit and the issued to the Advanced Environmental, Inc. on 13570 Whittram Ave. Fontana, CA. 92335. I would like to request an informal appeals conference.

I called the number that was printed on the notice and the number was not a working number (510) 540-3975 and I' d like to speak to a DTSC representative in regards to the cleaning or not cleaning their tanks, needs to recycle cleaning water.

I need to add that nalogens and polychlorinated biphenyls testing needs to be done. The tankers are going though residents and school and there is unforeseen consequences for the people that live around are.

Thank you
