Hello Donn:

I am confirming that Johnson Controls has received your Settlement of the SOVs letter, dated January 30, 2015. Johnson Controls requests that the DTSC provide an extension to the 10 day deadline to respond to the proposed approach to form a subset of TRC members to negotiate program changes.

Please let me know if the DTSC requires a formal written response for the extension request, beyond this email.

We appreciate all your time and efforts up to this point to work with Will Semmes and I to discuss the issues surrounding this process.

Sincerely;

Jeff Werwie, P.E., CHMM
