

• **Public Resource Code Section 42476.5.**

A person who exports covered electronic waste, or a covered electronic device intended for recycling or disposal, to a foreign country, or to another state for ultimate export to a foreign country, shall do all of the following at least 60 days prior to export:

(a) Notify the department of the destination, disposition, contents, and volume of the waste, or device intended for recycling or disposal to be exported, and include with the notification the demonstrations required pursuant to subdivisions (b) to (e), inclusive.

(b) Demonstrate that the waste or device is being exported for the purposes of recycling or disposal.

(c) Demonstrate that the importation of the waste or device is not prohibited by an applicable law in the state or country of destination and that any import will be conducted in accordance with all applicable laws. As part of this demonstration, required import and operating licenses, permits, or other appropriate authorization documents shall be forwarded to the department.

(d) Demonstrate that the exportation of the waste or device is conducted in accordance with applicable United States or applicable international law.

(e) (1) Demonstrate that the waste or device will be managed within the country of destination only at facilities whose operations meet or exceed the binding decisions and implementing guidelines of the Organization for Economic Cooperation and Development for the environmentally sound management of the waste or device being exported.

(2) The demonstration required by this subdivision applies to any country of destination, notwithstanding that the country is not a member of the Organization for Economic Cooperation and Development.
