STAY OF FINAL STANDARDIZED HAZARDOUS WASTE FACILITY PERMIT FOR
SAN JOAQUIN FILTER RECYCLING, LLC, 14287 E. MANNING AVENUE, PARLIER,
CALIFORNIA, EPA ID No. CAL 000102751

Dear Mr. Manser:

The Permit Appeals Team of Department of Toxic Substances Control (DTSC) has received a petition for review (Appeal) of the Final Standardized Hazardous Waste Facility Permit decision issued by DTSC on December 17, 2008 for the San Joaquin Filter Recycling, LLC, Parlier, Ca facility. The single appeal (attached) was filed by Mr. Philip Chandler.

Pursuant to California Code of Regulations, title 22, section 66271.14, subdivision (b)(2), the permit decision is stayed until DTSC has completed its preliminary review of the appeal and determined which, if any, of the issues raised in the Appeal meet the criteria set forth in California Code of Regulations, title 22, section 66271.18 for granting a review. By a copy of this letter to Mr. Chandler, DTSC is also acknowledging the receipt of his appeal.

If DTSC determines that one or more issues raised in the Appeal meet the procedural and substantive criteria for granting a review, DTSC will issue an order and a public notice establishing a briefing schedule during which interested parties may submit written arguments to DTSC on identified appeal comments accepted for further briefing. DTSC will also determine which conditions in the permit decision are affected by the appeal issues for which a briefing period is granted and may adjust the scope of the stay pursuant to California Code of Regulations, title 22, section 66271.15. If a briefing schedule is established, DTSC will issue a second order setting forth its final decision on the Appeal after considering all the arguments submitted during the briefing period.

In the event that DTSC determines that none of the issues raised in the Appeal meet the criteria for granting a review, DTSC will issue an order denying the Appeal and will rescind the stay of the permit decision.
