

Proposed changes for non-RCRA section

§66270.42.5. Permit Modifications for Non-RCRA Activities. This subsection deleted

(a) This section applies only to permit modifications involving activities that are not subject to permitting requirements under the federal act.

(b) The following types of changes to a facility's authorization are not subject to the permit modification approval or procedural requirements of sections 66270.41 or 66270.42. Except as otherwise specified below, the owner or operator of the facility shall notify the Department in writing of any change within ten (10) calendar days after the change is put into effect:

(1) changes in the expiration date of the permit to allow earlier permit termination, with prior written approval of the Department;

(2) changes to the closure plan to reflect a decrease in the estimated maximum extent of operations or maximum inventory of waste on site at any time during the active life of the facility, with prior written approval from the Department;

(3) correction of non-substantive typographical errors;

(4) a change in the legal name of the facility that does not include changes in ownership or operational control of the facility;

(5) informational changes that do not impact the operation of the facility;

(6) changes in frequency of or procedures for monitoring, reporting, sampling or maintenance activities that provide for more frequent monitoring, reporting, sampling or maintenance;

(7) equipment replacement or upgrading with functionally equivalent components (other than the structural unit itself), as long as the functional capacity of the unit is not increased or the unit is not being moved to another location, with a written notice to the Department at least 30 days prior to the intended change, or such shorter time frame as may be approved by the Department;

(8) changes to waste sampling or analysis methods to conform with the Department's guidance or regulations;

(9) changes to analytical quality assurance/control plan to conform to the Department's guidance or regulations;

(10) changes in procedures for maintaining the operating record;

(11) changes in frequency or content of inspection schedules that provide for more frequent or more thorough inspections;

(12) changes in the training plan that increase the amount or type of training given to employees;

(13) changes in emergency procedures that maintain or improve the effectiveness of the response;

(14) relocation of emergency equipment;

(15) changes to structures or equipment within the boundary of a permitted unit, but which the owner or operator certifies as not actively related to the storage, treatment, disposal or secondary containment of hazardous waste, with a written notice to the Department at least 30 days prior to the intended change, or such shorter time frame as may be approved by the Department;
