

Dear Green Ribbon Science Panel "De Minimis & Unintentionally-Added Chemicals" (Subcommittee 3) members:

Your second and final subcommittee teleconference meeting before the larger meeting of the full GRSP in May will be this coming Monday, April 18, 2011 from 9:30 to 12 noon Pacific Time.

As a reminder, your chair, Bill Carroll, has asked that each member be prepared at the beginning of the subcommittee discussion to provide an approximate 3 minute integrated summary of your individual suggestions/opinions on all the questions discussed at your first meeting on April 6th. (Refer to Questions #3A and #3B in the attached topic paper.)

This will be followed by a discussion of Question #3C (What should be the criteria for allowing an exemption when the product contains the chemical only as an unintentionally-added chemical?). After vetting this final question, your chair will ask each member to summarize your individual suggestions/opinions in response to this question.

The summaries requested of each member are intended to provide concrete recommendations for consideration by the full GRSP and DTSC.

The public notice and public agenda for this teleconference are attached for your reference.

Thank you again for your time and expertise. If you have any questions, please contact Kathy Barwick at (916) 323-3381.

Odette Madriago
Acting Chief Deputy Director
Dept. of Toxic Substances Control
