DTSC begins building a storm water diversion system to protect the City of Jackson

JACKSON – The Department of Toxic Substances Control (DTSC) is working this week on a storm water diversion system to protect the City of Jackson from the danger posed by a dilapidated dam at the Argonaut Mine Tailings Site. DTSC is building this system to reduce the risk of a possible failure of the Eastwood Multiple Arch Dam during the winter rainy season.

Representatives from DTSC and the City of Jackson will be available to answer questions from the media.

When: Tuesday, Nov. 3, 2015

Time: 1 p.m.

Location: Corner of Sutter Street and Argonaut Drive, Jackson, CA

Contact: Jorge Moreno, 916-869-5422

###

FOR GENERAL INQUIRIES: Contact the Department of Toxic Substances Control by phone at (800) 728-6942 or visit www.dtsc.ca.gov. To report illegal handling, discharge, or disposal of hazardous waste, call the Waste Alert Hotline at (800) 698-6942.

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.
