DTSC Enhances the Public's Access to Inspection and Enforcement Data

SACRAMENTO – The Department of Toxic Substances Control (DTSC) announces the launch of enhancements to its EnviroStor Data Management System public web site. The site will now provide you with detailed information on inspections and enforcement actions of permitted hazardous waste facilities to further aid you in gathering information about these sites.

EnviroStor continues to provide all existing information on permits and corrective action at hazardous waste facilities, as well as site cleanup projects. EnviroStor will now allow searches for information on completed facility inspection and enforcement actions, in addition to site investigation, site cleanup, permitting, and planned, current or completed corrective actions under DTSC's oversight.

For more information, go to the [EnviroStor website Fact Sheet](#).

###

FOR GENERAL INQUIRIES: Contact the Department of Toxic Substances Control by phone at (800) 728-6942 or visit www.dtsc.ca.gov. To report illegal handling, discharge, or disposal of hazardous waste, call the Waste Alert Hotline at (800) 698-6942.

The Mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated properties, identifying and promoting safer ingredients in consumer products, and ensuring stewardship through enforcement, regulation and pollution prevention.
