Please join the California Department of Toxic Substances Control (DTSC) as we convene a meeting of the Green Ribbon Science Panel (GRSP or Panel), on November 12-13, 2015, in Sacramento, California. The public is invited to attend and address the Panel on agenda items.

BACKGROUND

The GRSP was established by AB 1879 (Feuer, Chapter 559, Statutes of 2008) to act as a resource to the DTSC and the California Environmental Policy Council. The GRSP provides scientific and technical advice to DTSC as we strive to build a meaningful, practical, and defensible Safer Consumer Products program. The GRSP also provides advice and recommendations on a variety of other scientific and technical matters related to green chemistry and chemicals policy and implementation strategies.

MEETING PURPOSE

The purpose of this meeting is to provide the GRSP a forum to discuss and advise DTSC on issues related to the Draft Stage 1 Alternatives Analysis Guide, which is currently open for public comments until November 16, 2015. The GRSP will also discuss and advise DTSC on its research on products and chemicals in the three-year Priority Products Work Plan.

MEETING DETAILS

The public is invited to attend in person and provide comments to the GRSP on the agenda items to inform their advice to DTSC. All other non-agenda related comments on the Safer Consumer Products program may be submitted directly to DTSC at SaferConsumerProducts@dtsc.ca.gov.
