# WORK NOTICE

## ADDITIONAL SOIL REMOVAL ACTIVITIES

### Proposed East Los Angeles High School #1, Los Angeles, California

**Additional field activities are scheduled to begin on Monday, May 15, 2006 and are expected to continue through end of May 2006, from 7 a.m. until approximately 6 p.m.**

The Los Angeles Unified School District (LAUSD) plans to conduct additional soil removal activities at the proposed East Los Angeles High School No. 1. The proposed school site is bounded by Mission Road to the west, Utah Street to the north, East 1<sup>st</sup> Street to the south, and Gabriel Garcia Marquez Street (former North Clarence Street) to the east. A licensed contractor, working on behalf of the LAUSD, will conduct the soil removal. The Department of Toxic Substance Control (DTSC) is the state regulatory agency overseeing the fieldwork.

The soil removal will be conducted pursuant to a Removal Action Workplan (RAW) and Supplemental Site Investigation (SSI) Report prepared for the project. Field activities will consist of digging shallow soil contaminated with lead-based paint from seven locations throughout the site and transporting the soil off-site for proper disposal. The demolition activities will begin following the soil removal activities.

To ensure continued safety, the area will remain fenced to restrict access while the soil removal and sampling is in progress. Efforts will be taken to minimize noise and disruptions. No street closures are planned. Please note that due to the nature of the work, onsite fieldwork may be conducted intermittently throughout the removal activities.

The key technical documents for the site are available for viewing at the following locations:

**Benjamin Franklin Library**

2200 East 1<sup>st</sup> Street  
Los Angeles, CA 90033, (323) 263-6901
