

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

BUTTERFIELD PROPERTY

590 South Santa Fe Avenue, Los Angeles, CA

PUBLIC COMMENT PERIOD September 7 – October 7, 2015

WHAT IS BEING PROPOSED?

The Department of Toxic Substances Control (DTSC) invites you to review and comment on the draft Removal Action Workplan (RAW) for the Butterfield Property (Site) located at 590 South Santa Fe Avenue, Los Angeles from September 7 through October 7. The Site will be a maintenance yard for the Los Angeles County Metropolitan Transportation Authority (LACMTA) Purple Line Extension/Westside Subway Project. There are chemicals in the soil, soil vapors and groundwater that need to be cleaned up. A draft RAW is a plan that describes results from tests and identifies ways to cleanup the contamination. The RAW and related documents can be found here:

http://www.envirostor.dtsc.ca.gov/public/profile_report.asp?global_id=19281223

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

In accordance with CEQA, DTSC has reviewed the Environmental Impact Report (EIR) prepared by MTA for the MTA Purple Line Extension/Westside Subway Project (PLE) to ensure that CEQA requirements have been satisfied for the Site. The EIR included excavation activities at the site associated with the RAW and thereby evaluated environmental impact(s) from the Site. The EIR can be found on MTA's website:
