

# Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

## Removal Action Workplan Available for Public Review Northern 2-Acre Portion of Colberg Boat Works Property

848 West Fremont Street, Stockton, CA 95203

DTSC invites comments during the public comment period for the Removal Action Work Plan (RAW) for the Northern 2-Acre portion of the Colberg Boat Works Property (Site). The Colberg Boat Works property is located at 848 West Fremont Street in Stockton, California 95203. The Colberg Boat Works property public comment period will run from April 22 to May 22, 2016. The eastern half of the Site is undeveloped and is used along with two storage buildings on the property to store boats, automobiles, and RVs. Historically, the Site has been used for agriculture, as a lumber yard and for storage. Investigations at the Site indicate that the sole chemical of potential concern (COPC) is arsenic in soil. The lateral and vertical extent of arsenic-impacted soil is limited to shallow soil (approximately the upper 2.5 feet below ground surface) at four localized areas of the Site.

### California Environmental Quality Act (CEQA)

DTSC has prepared a draft Notice of Exemption (NOE) for this project as required by the CEQA. The NOE document states that the proposed removal action will not have the potential for significant negative impacts on the environment. The draft NOE is available for public review in the repositories listed below. A public meeting has not been scheduled but one will be considered if one is requested.

You can review the RAW and Site related documents at these locations:
