

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances through the restoration of contaminated resources, enforcement, regulation and pollution prevention.

G & K SERVICES FACILITY

DRAFT CORRECTIVE MEASURES WORKPLAN AVAILABLE FOR REVIEW

PUBLIC COMMENT PERIOD BEGINNING: NOVEMBER 28, 2012 THROUGH DECEMBER 28, 2012

WHAT IS BEING PROPOSED?

A draft Corrective Measures Workplan (CMP) was submitted to the Department of Toxic Substances Control (DTSC) concerning G & K Services Facility (Site). The Site is located at 14700 Spring Avenue, City of Santa Fe Springs, California. DTSC is responsible for protecting Californians against threats to the public health and the environment, through hazardous waste regulation, contamination cleanup, and pollution prevention. DTSC is overseeing the investigation and cleanup of the contamination at the Site. The CMP summarizes site investigation and outlines alternative cleanup methods; it is available for public review and comment. The selected cleanup plan will use land use restrictions and other institutional controls to limit exposure to soil contaminated with elevated levels of 1,2,4-trimethylbenzene (1,2,4-TMB), and 1,3,5-trimethylbenzene (1,3,5-TMB), gasoline. DTSC invites you to review and comment on the draft CMP and encourages your participation in the cleanup decision making process.

CALIFORNIA ENVIRONMENTAL QUALITY ACT

In accordance with the California Environmental Quality Act (CEQA), DTSC conducted a preliminary review to assess the potential impact the cleanup project may have on the environment. DTSC has prepared a Notice of Exemption (NOE), which states that the project does not have the potential to negatively impact the environment or human health. The NOE is available for public review at the information repositories listed below.

NEXT STEPS

DTSC will review all public comments received during the public comment period prior to making a final decision on which cleanup alternative to implement. DTSC will also provide a Responsiveness Summary, our official response to the public comments received. The Responsiveness Summary will become part of the project Administrative Record and a copy will be placed in the information repositories and sent to those who submitted comments.

INFORMATION REPOSITORIES

The Corrective Measures Workplan, NOE, and related project documents can be reviewed at:
