

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

COMPLETION OF FIVE-YEAR REVIEW AGRICULTURAL/RECREATIONAL TRACTS

ANTIOCH, CALIFORNIA

The Department of Toxic Substances Control (DTSC) has completed the second Five-Year Review for the Agricultural and Recreational Tracts (Site). The Site, 30 acre, is located at 1030 Apollo Court in the City of Antioch, California 94509. The Recreational Tract currently includes community ball fields, bleachers, a concession stand and an asphalt parking area referred to as West Parking Lot. The Agricultural Tract is developed with a parking lot referred to as the East Parking Lot and the rest of the area is developed into five soccer fields.

The Preliminary Endangerment Assessment evaluated the chemical levels detected in the soil and identified potential health hazard risks only if the tracts were developed for residential and other sensitive uses. Recreational use was evaluated and determined to be safe. A deed restriction has been placed on the Agricultural and Recreational Tracts to ensure future development does not include sensitive uses such as residential housing, hospitals, schools or day care centers.

A commercially produced material, referred to as "Sierra-Crete" was placed beneath the West Parking Lot during construction by the City of Antioch as a base material. Sierra-Crete was found to contain elevated levels of dioxins. An Operation and Maintenance Agreement has been signed with the Antioch Youth Sports Complex Corporation to ensure the cap on this parking lot is maintained.

The purpose of a Five-Year Review is to determine whether the remedy implemented at the site continues to be protective of human health and the environment. The methods, findings and conclusions of the Review are documented in a Five-Year Review report.

DTSC reviewed and approved the Five Year Review report for this Site. The report concludes that the remedies implemented continue to be protective of public health and the environment. The Five-Year Review report is available at the following locations:

Antioch Library
501 West 18th Street
Antioch, California 94509
925-757-9224; Call for hours

DTSC - Berkeley Regional Office
700 Heinz Avenue
Berkeley, California 94710
510-540-3800; Call for appointment

The report can also be read on the internet at:
