

NOTICE OF PUBLIC COMMENT PERIOD  
FOR THE PROPOSED  
GIAMPOLINI CLEANUP PLAN

Giampolini Site  
2847 Peralta Street,  
Oakland, California

April 20, 2006 to May 19, 2006

The California Department of Toxic Substances Control (DTSC) is requesting public comment on the proposed Cleanup Plan and California Environmental Quality Act (CEQA) Notice of Exemption for the Giampolini Site located at 2847 Peralta Street in Oakland, California. The Site has been occupied by a paint factory, a reinforcing steel (rebar) bending and storage facility, an auto dismantling operation and a painting contractor. DTSC proposes to cleanup the mineral spirits, benzene, polycyclic aromatic hydrocarbons, polychlorinated biphenyls and lead found in the soil and the mineral spirits and benzene detected in the groundwater.

The Giampolini Site Cleanup Plan proposes to remove the soil above the water table to achieve residential cleanup goals. Groundwater will be treated with an oxygen releasing compound to enhance the natural breakdown of the mineral spirits and benzene into non-toxic compounds. As provided for in state and federal law, DTSC is also proposing a Notice of Exemption under the California Environmental Quality Act (CEQA). Copies of the Giampolini Site Cleanup Plan, the Notice of Exemption, and other site related documents are available for public review at the information repositories listed below.

**Oakland Library-West Oakland Branch**  
1801 Adeline Street  
Oakland, CA 94607
