

**NOTICE OF PUBLIC COMMENT PERIOD**  
**DRAFT REMOVAL ACTION WORKPLAN**  
**FORMER HONEYWELL BANDINI SITE**  
Vernon, California

**PUBLIC COMMENT PERIOD: February 8, 2012 through March 8, 2012**

**WHAT IS BEING PROPOSED?** The California State Department of Toxic Substances Control (DTSC) invites public comment on the draft Removal Action Work Plan (RAW) submitted by Chickadee Remediation Company for the Former Honeywell Bandini Site in Vernon, California (Site).

The draft RAW proposes to install Soil Vapor Extraction (SVE) wells to remove several VOCs including tetrachloroethene (PCE), trichloroethene (TCE, cis- and trans-1,2-dichloroethene (DCE), vinyl chloride (VC), and benzene, and transport the collected contaminated soil to a licensed disposal/treatment facility. There is no immediate health risk, because the public is not exposed to the contaminated soil; however, the DTSC requested the cleanup plan to protect the environment.

DTSC is responsible for overseeing environmental investigations throughout the state and ensuring that cleanup activities are conducted in accordance with state and federal laws and regulations.

**NOTICE OF EXEMPTION (NOE):**

In compliance with the California Environmental Quality Act, DTSC has prepared a draft Notice of Exemption (NOE) for this project. The NOE states that the proposed cleanup will not have a significant negative effect on human health and the environment.

**HOW DO I PARTICIPATE?**

This notice provides the community an opportunity to learn more about the project and provide comments to DTSC about the proposed cleanup during the public comment period. Comments concerning the draft RAW may be submitted in writing to:
