

**SSFL Weekly Activity Report
Week of August 5 – 11 2007**

Consent Order

The final Consent Order for Corrective Action (P3-07/08-003) was circulated to Boeing, DOE, and NASA for signature. DTSC anticipates signing the Order and thereby making it effective on or about August 16.

Radiological Risk Assessment Report – Dayton Canyon

At DTSC's request, USEPA IX agreed to review and comment on the June 7, 2006 "Radiological Investigation Report" for the Dayton Canyon site, prepared by Allwest Remediation, Inc., for Centex Homes (the developer) and a related draft "August 2007 Radiological Risk Assessment for the Proposed Sterling Residential Development within Dayton Canyon, West Hills, California."

Group 6 Area RFI Report

DTSC is continuing review of the Group 6 Area RFI Report. Public comments for this report are due by August 25, 2007.

DTSC Web Site

Development of a DTSC web site dedicated solely to the SSFL investigation and cleanup continued. The web site is scheduled to be available August 14, 2007.
