

**Notice of Public Comment Period
Draft Removal Action Workplan
Sacramento Stucco Company
West Sacramento, California**

Public Comment Period begins July 30 and ends August 28, 2008

The Department of Toxic Substances Control (DTSC) invites the public to review and comment on the Draft Removal Action Workplan (RAW) for soil removal at the Sacramento Stucco property, 860 Riske Lane, West Sacramento. DTSC also invites public comments on the California Environmental Quality Act (CEQA) Notice of Exemption. The Sacramento Stucco property is located at the intersection of Riske Lane and South River Road in West Sacramento.

Investigations found lead in shallow soil predominantly on the northern portion of the property. The amount of lead contaminated soil is about 2,300 cubic yards. The Draft RAW describes plans to excavate and transport the soils to an authorized and permitted landfill. The removal work will take about four weeks.

In accordance with CEQA, DTSC determined that the activities proposed in the Draft RAW will be a minor cleanup. As such, the project is exempt from CEQA. Therefore, DTSC has proposed a Notice of Exemption.

The public comment period begins on Wednesday, July 30, 2008 and ends on Thursday, August 28, 2008. Written comments regarding the Draft RAW and the CEQA Notice of Exemption must be sent by August 28, 2008 and may be submitted in the mail or by electronic mail to:

**Leona Winner
DTSC Project Manager
8800 Cal Center Drive
Sacramento, CA 95826
LWinner@dtsc.ca.gov**

You may review the Draft RAW, the proposed CEQA Notice of Exemption and other related documents at the DTSC website, www.envirostor.dtsc.ca.gov/public/, type in "West Sacramento", go to the Report for "Sacramento Stucco" and then click on the "community involvement" button.
