

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

DTSC Announces Approval of the Permit for Lawrence Livermore National Laboratory 7000 East Avenue, Livermore CA 94551

DTSC grants LLNL the continued authorization to treat and store hazardous and mixed wastes for 10 years from the effective date of the permit. The Permit shall become effective 30 days after this notice of decision, unless anyone who commented decides to appeal the decision. Any person who filed comments on the draft Permit may petition DTSC to review any condition of the permit decision. Persons who did not file comments on the draft permit may petition for review only the changes that were made from the draft to the final permit decision.

Petitions must include a statement of the reasons for the requested review, and show that any issues being raised were brought up earlier during the public comment period, or are about a change from the draft to final permit decision. Petitions should also show that the condition in question is based on: (1) a finding of fact or conclusion of law which is clearly wrong; or (2) a decision or an important policy consideration which DTSC should, in its discretion, review. Petitions must be postmarked by no later than April 21, 2016, and sent to:

Mr. Paul Ruffin
Office of Permit Appeals
California Department of Toxic Substances Control
8800 Cal Center Drive
Sacramento, California 95826

DTSC prepared a Response to Comments document that you may read or download from this link: http://www.dtsc.ca.gov/HazardousWaste/Hazardous_Waste_Facilities_Index.cfm#L. Along with this Permit, we approve the California Environmental Quality Act Addendum to the Negative Declaration that DTSC adopted for our 1999 permit decision.

You may review this Addendum, the Permit and the Response to Comments at these places:
